**THE SLAVIANS' NEUTRALITY PACT**

**Issued for signature from April 22, 2022**

Declaration of the sovereignty and neutrality of the Slavs - A message to the Slavic nations and states

**CENTRAL EUROPEAN NEUTRALITY PACT**

Defending our nations from genocide by globalists

Defending our nation states from liquidation

**PREAMBLE**

The Natural Law is binding on every man, always and everywhere, and the most ennobling system of the state is democracy, that is, enabling the citizens of civilized states to influence the power to realize the common good of the members of a given nation and state.

Globalists, under the guise of spreading these two noble ideas, i.e. democracy and human rights, attacked successive countries militarily for decades, but did not implement the ideas they were supposed to spread. They have used and are using military force to spread evil.

In fact, globalists have spread and are spreading terror, implementing totalitarianism and violence. With the help of media, they lie to the public that they are fighting for human rights, when in fact they ruthlessly violate them.

All globalist power must end TODAY - HERE and NOW. STOP globalists! STOP the war! All power in states must return to the members of the peoples of those states - without foreign interference from outside.

The International Right to Self-Determination of Nations provides each nation with the right to have its own sovereign nation state.

**DECLARATION**

That is why We, the undersigned, in order to protect our peoples, to stop the global genocide of nations carried out by the globalists and to stop the liquidation of nation states, We declare the accession of our states to the Neutral Area of sovereign nation states of Central Europe.

We declare that this is our will and this is the good for our peoples and our states.

We pledge to implement and enforce moral Natural Human Rights in our countries and nations.

We declare the implementation and enforcement in our countries of the supremacy of our national laws, enshrined in our state Constitutions, over the rights of globalists of transnational geopolitical blocs and corporations.

We declare the implementation and enforcement in our countries of a true democracy in which every citizen will have the opportunity to have a real influence on the authorities in order to realize the common good.

We guarantee a non-antagonistic balance of power, based on friendship and mutual aid, with respect for Natural Human Rights and the sovereignty of each nation-state.

We declare the establishment of an information centre in our countries in order to achieve the objectives declared in this Declaration.

In the realization of our purposes, Yes So help us God!

The undersigned members of the nations of the Central European States acceding to the Pact:
